

Dear Ladies and Gentlemen:

Please preserve the integrity of amateur radio by keeping Element 1. Handicapped people have always had an opportunity to get into ham radio, blind, deaf, etc. Others have illegally used handicaps with doctors assistance in obtaining licenses(bad knees, etc.) Would you want to fly with a blind pilot? No, and a blind person in their right mind wouldn't expect you to do so. All blind hams with cw credit living or deceased would be punished by Element 1 removal!

Check k4lta as an example of a blind extra. He is only one of many!

Thanks, Wayland Bradley k4ws
